- This worksheet is intended for supplemental use only. The University will use your Academic Requirements Report (ARR) to track your graduation requirements, including those for your major. Please continue to check your ARR for accuracy.
- If your ARR requires a correction, please submit an ARR Correction Form.
- Your Degree Planner (in mycsusm.edu) will display the following requirements in the University's recommended sequence.
- All courses used for the major and preparation for the major must be completed with a grade of C (2.0) or higher.
- All non-articulated courses MUST be reviewed and approved by a faculty advisor.
- It is highly recommended that you meet with your Biochemistry faculty advisor at least once a year.
- Transfer students must complete a minimum of 24 units counted towards the Biochemistry major at CSUSM.
- With suitable choice of electives, this degree meets certification requirements by the American Chemical Society.
- Course offerings are subject to change. Verify course availability with the Chemistry department.
- **Biochemistry majors may not minor in Chemistry.**
