Re: Statement on Extended Learning Dean Investigation

I was disappointed to hear about the allegations of misuse of student funds. The ASI Executive Committee team have met with President Neufeldt and we look forward to receiving the results of the investigation. Regardless of outcome, Associated Students, Inc. (ASI) is committed to holding the University accountable in the ethical use and responsible spending of student dollars. As always, ASI will continue to serve as an advocate and voice for students and student dollars through this process.
