Enable Single Sign-on

When enabled, single sign-on remembers your credentials for this device, so that you can connect to other Citrix applications without having to sign in each time. You should do this only if your IT administrator has instructed you to. This will take effect the next time you log on to this device.

☐ Enable single sign-on

For more information on configuring single sign-on, please see article CTX133982 at citrix.com/support.
