Encrypting an Email Message:

[Information Security Responsible Use Policy](#) states that "Users must not access or transmit unencrypted Level 1 data over a public network." To adhere to this policy, we offer our users the ability to encrypt any email message simply by putting "csusm-encrypt" (not case-sensitive) in to the subject line of any email they wish to encrypt. A user may put the encryption phrase anywhere in the subject line.

Decrypting an Email Message:

If you are the recipient of an encrypted message, the following instructions will help you to decrypt your message.

Message  message.html (85 KB)

You've received an encrypted message from [REDACTED]@csusm.edu

To view your message

Save and open the attachment (message.html), and follow the instructions.
Sign in using the following email address: [REDACTED]@csusm.edu

This email message and its attachments are for the sole use of the intended recipient or recipients and may contain confidential information. If you have received this email in error, please notify the sender and delete this message.

Which account would you like to sign in with to view your encrypted message?

 Microsoft account

Create a Microsoft account for jbarende@csusm.edu that you can use to view this message and to access other Microsoft services, such as OneDrive, Xbox LIVE, or Outlook.com.

Work or school account

Sign in with the account provided by your work or school to use with Office 365 or other Microsoft services.

[Don't want to sign in? Use a one-time passcode to view the message.](#)

Click "Work or school account" to sign in with your campus credentials and multi-factor authenticate with DUO.

If you are unable to sign in with your campus credentials you may request a one-time passcode that will be emailed to the same email address as the encrypted message.

We sent a passcode to [@csusm.edu](#).

Please check your email, enter the passcode that corresponds with the reference code, and click continue. The passcode will expire in 15 minutes.
