

Psychology Master's Program

Student Learning Outcomes

PSLO #1 Explain and contrast important empirical and theoretical foundations of psychology, and identify unanswered questions stemming from those bodies of knowledge, with particular attention given to areas of psychology related to the thesis.

PSLO #2 Identify and explain basic research designs and statistical analyses, and appropriately apply these designs and analyses to independent research leading to and including the thesis.

PSLO #3 Demonstrate proficiency in the written and oral presentation of scientific content in psychology, including the appropriate use of APA style.

PSLO #4 Identify and evaluate the appropriate use of pedagogical techniques and skills, and apply them to the teaching of psychology.

PSLO #5 Cultivate their role as professionals by engaging in the relevant activities of the Psychology Department (e.g., participation in faculty searches, attendance at thesis proposals and defenses), participating in research conferences, and assuming graduate assistant assignments.
