Beyond the Decorative

October 9–December 31

Exhibition Opening: Sunday, October 16, 1–3 p.m.

Before the 19th-century, art served as ornament, decorating walls and living quarters. *Beyond the Decorative* surveys how contemporary artists are redefining decorative techniques and subjects by creating new narratives relating to individuality and self-expression through the mediums of painting, photography, video, sculpture, textile design, and wallpapers. This exhibition will feature an essay by artist and curator Constance Mallinson, and include works from nationally and internationally recognized artists including Zafi Ahmed, Casey Baden, Reed van Brunschot, Michael Harnish, Lesley Kice Nishigawara, Cecilia Paredes, and more.
